about 1.64 billion by the year 2025. The W.H.O. estimated some four million deaths each year that are caused by tobacco use. It is expected that if smoking were not cut down, then there would be about ten million people dead per year by 2030 (Overview). If the current smoking trends continue, tobacco is expected to become the leading cause of death worldwide, causing more deaths than HIV, maternal mortality, automobile accidents, homicide and suicide combined. But these implications lie beyond the smoker. Those who are exposed to the smoke 'passively' are people who are 'innocent bystanders' in a public place where there is or are present regular smokers. They endanger not only themselves, but everybody around them. This is cause for enough concern to move for a ban in public places. This paper will take a stance that smoking is bad for people and that it should be banned from public places.

Since the tobacco industry is quite a large one and it affects almost everybody that resides in the United States of America, the rules and regulations for the tobacco industry to follow have to be very carefully scrutinized and implemented. It is the aim of many organizations, such as the American Lung Association (ALA) to minimize the consumption of cigarettes all over the United States. It is argued thus: Smoking, and smoking related afflictions, is responsible for over four hundred thousand deaths in America each year. In addition to these priceless losses of lives,
