## SPECIAL EDUCATION EVALUATION CRITERIA\*

State and federal law requires the Grantsburg School District to evaluate children with disabilities who are in need of special education and related services. The District evaluates children upon initial referral for special education, and reevaluates children with disabilities at least once every three years or when conditions warrant a reevaluation.

The District is committed to ensuring that each child's IEP team bases its decisions on high quality, reliable, and educationally sound special education evaluations. As a result, the District has established the following list of criteria for all special education evaluations that the District conducts or obtains. Unique circumstances may justify deviation from these criteria. If a parent or District staff member is aware of such unique circumstances, they should inform the Director of Special Education immediately.

1. The Evaluator must hold a valid license from the State of Wisconsin or Minnesota in the field related to the known or suspected disability. The Evaluator must have extensive training and experience in evaluation of the area(s) of concern and be able to interpret instructional implications of the evaluation results. In instances where no "applicable license" exists, the District must be satisfied that the Evaluator has extensive training and experience related to the known or suspected disability.
2. The Evaluator must be located within 100 miles of the school District.
3. Evaluator must be permitted to directly communicate and share information with members of the IEP team and the Director of Special Education. The Evaluator must also release the assessments and results, including any parent and teacher surveys, to the members of the IEP team and the Director of Special Education.
4. Unless otherwise determined by the members of a child's IEP team, the Evaluator must observe the child in one or more educational settings or make at least one contact with the child's regular education teacher for the purpose of determining how the student is progressing in the general curriculum. In addition, evaluators are encouraged to make additional contacts with other involved regular or special education teachers, and related service providers.
5. If a parent requests unreasonable reimbursements of travel costs or other related costs in connection with any evaluation, the District will suggest mediation and/or initiate a due process hearing. The District will not pay unreasonable travel costs unless a hearing officer, applying state and federal law, orders the district to do so.
